JAMES SHIELDS

- ARTIST, DESIGNER, EDUCATOR -

I believe that art gives kids a chance to use their voice, their imagination, and to communicate in ways that they wouldn't think to do otherwise. I've spent the past 12 years developing ways to pour my talent and passion into educational art. I've worked in schools all over the country and kids all over the world to do mural projects and coloring book activities.

Accra, Ghana. 2016. Chale Wote Street Art Festival

OVERVIEW

I've developed a program for students to participate in mural making and coloring book design. Sharing the joy of making coloring books gives them tools to create their own curriculums for causes they care about.
